Connecting your business to payments

Zed School Offering

Zed Payments

Allows schools to easily accept payments from multiple payment methods, generate invoices and automate reconciliation with dashboards and reports.

Zed Accounting

Enables accounting for schools and streamlines financial management by generating financial reports including journals, trial balance, cashflow statement, profit & loss statement , balance sheet & much more.

Zed Pocket Money

Enables parents to load pocket money into a Zed wallet or payment card for a student, who can make cashless purchases at school using a biometric fingerprint or payment card.

Zed Attendance

A solution that utilizes biometric technology to track student attendance in classes, and mandatory school events. No more worries about fake attendance. It is user-friendly for both teachers and students, allowing easy navigation. Users can view and generate attendance reports for individuals or entire class units.

Connecting businesses to payments

Why ZED

✓ Most schools send email or issue physical documents to parents for payments.

✓ Parents make payments via bank transfer, mobile money, bank agents or school bursars.

✓ Parents present a payment slip, email or sms to the school.

✓ Schools have to obtain a statement to confirm such payments

✓ **The entire process is tedious, disorganised and cumbersome.**

Connecting businesses to payments

Benefits To Schools

✓ Automate payment reconciliations.

✓ Make payments simple and convenient for parents and students.

✓ Receive mobile payments directly to a bank account.

✓ Enable schools to know paid and unpaid students immediately.

✓ Autogenerate financial reports anytime.

Connecting businesses to payments
